

New Grants Management System (OMNISTAR): Frequently Asked Questions

- **Do I need to move my current grant to OmniStar now?**

No. If your grant is already active, you should continue using Grant Tracker. We will contact you if any action is needed.

- **Will my reporting or payments change?**

No. There are no immediate changes to reporting or payment arrangements during the transition.

- **Which system should I use to apply for funding?**

This will depend on the funding round. Each call will clearly state whether to use Grant Tracker or OmniStar.

- **Do I need to register for OmniStar?**

Yes, if you are applying for a round run on OmniStar. We will provide step-by-step guidance.

- **When will Grant Tracker be retired?**

Grant Tracker will be retired in December 2026, after which all grants will be managed on OmniStar.

- **Where can I get support?**

You can contact the Research team at research@diabetes.org.uk. We will also provide guidance and updates throughout the transition.
